

BROUGHTON ASTLEY PARISH COUNCIL
ENVIRONMENTAL AND SUSTAINABILITY POLICY

POLICY STATEMENT

The Parish Council is committed to preserving and protecting the environment by adopting an environmental and sustainability policy.

AIMS

Broughton Astley Parish Council is committed to protecting the environment and the natural heritage of the Parish and recognise the importance and value of this environment and its contribution to quality of life for the villages and wider community.

In carrying out its own activities the Parish Council will strive to make a positive contribution to protecting the local and wider environment.

In conjunction with other Parish Councils, Harborough District Council, Leicestershire County Council, local businesses, community groups, schools and the public, the Parish Council aims to help meet the needs of today's society without compromising future generations' ability to meet their own needs.

COUNCIL ACTIVITIES

In carrying out its own activities, where practical and economical, the Parish Council will:

Minimise waste and pollution:

- Reduce the use of resources
- Re-use materials whenever possible
- Recycle when waste is produced
- Seek to eliminate the unnecessary use of energy and reduce carbon and greenhouse gas emissions.
- Provide information electronically as much as possible
- Avoid and advocate against the use of single-use plastic items
- Minimise the environments impact of travelling on Council business, where practicable and safe, by walking, cycling, car sharing or the use of public transport
- Seek to maximise the use of renewable energy sources

PROCUREMENT

When purchasing services and goods, where practical and economical, the Parish Council will give preference to:

- Local suppliers
- Options that are environmentally friendly
- Products that have been manufactured from recycled materials
- Products that can be disposed of in an environmentally sustainable manner

CONTRACTORS AND MAINTENANCE

The Parish Council will require that contractors, councillors, and volunteers who carry out maintenance on Parish-managed land, or on other areas of the Parish at the instigation of an officer:

- Minimise the use of harmful pesticides and chemicals
- Minimise adverse impacts on air quality
- Undertake the work in a manner that, where practicable, benefits wildlife and the environment
- Where practicable use locally sourced plants grown in the UK. In appropriate locations encourage the use of native, wildflower and bee friendly species

DECISION MAKING

In its decision making the Parish Council will take careful consideration of:

- The importance of encouraging walking, cycling and the use of public transport when practicable
- The need to reduce, re-use and recycle to protect resources
- The need to avoid adverse impacts on air quality
- The need to conserve and improve natural habitats
- The need to protect vulnerable and protected species

GENERAL

Where the Parish Council has the opportunity, in a way that is both practical and economic, it will:

- Encourage a 'Plastic Free' Parish Council by discouraging the use of single use plastics within the parish and encouraging businesses to use alternatives
- Discourage all forms of littering, particularly dog fouling, including around open areas used by families and children
- Encourage the conservation and sustainable use of natural resources
- Encourage reduction, re-use, and recycling of resources within the Parish
- Encourage the use of materials and systems that improve energy efficiency of developments, both new-build and alterations to existing dwellings, to reduce greenhouse gas emissions
- Encourage new-builds and alterations to existing dwellings, to be nature friendly, located close to public transport and amenities, to provide electric vehicle charge points, and encourage the provision of cycle lanes
- Encourage local action in support of the environment
- Highlight the importance and value of our local environment and its contributions to our community's quality of life
- Recognise the importance of trees, hedgerows, and deadwood, as an essential corridor for the movement of wildlife, and a support for animals and plants
- Require any person or organisation carrying out work in the Parish to do so in line with this policy

NOTE: Plastic Free does not mean avoiding all use of plastic; it refers to eliminating single-use plastics such as single use plastic bottles, plastic cups, and plastic straws.
